Increase Productivity

Properly planned packing, shipping and receiving workstations can increase productivity up to 25% over traditional workstations.

BOSTONtec accessories are designed to be interchangeable so users can add or change configurations as needed.

Reduce Workers' Compensation Costs

OSHA estimates U.S. companies spend \$20 billion a year on repetitive motion-type injuries.

BOSTONtec ergonomic workstations and accessories assist in preventing the stress and strain motions that lead to these work-related injuries.

Easy & Economical Customization

We offer a wide variety of workstation designs and modular accessories but some applications require a custom option.

BOSTONtec is the industry leader in economical customized solutions.
